

Renaissance Kids celebrates the theme of Growing up Renaissance, which embodies the ideal of loving to learn and empowering students to expand their perspectives and achieve their dreams. The company's founder, Anna Rubin, has always led by example, reading for pleasure and displaying a fascination for the world around her. Anna's first grade students at the Kenter Canyon Elementary School thrived under her care and when, 29 years ago, she first opened Renaissance Kids Enrichment Center, this culture of learning for pleasure became a standard in the Los Angeles educational community.

We offer a unique program that encourages students of all ages to explore and love a variety of academic pursuits. Whether they are exploring the wonders of science, absorbing the beauty and history of art, or challenging themselves with advanced literature and mathematics, the students will be forever captivated by a love for knowledge. Each and every course reflects the *Renaissance Kids*' philosophy that learning should be exciting and challenging.

Policy Regarding Private Sessions

As Renaissance Kids, Inc. enters its twenty-ninth year, we continue to find ourselves faced with the challenge of maintaining the high quality of our educational enrichment environment at reasonable prices. We are therefore continuing the policy that has been in effect since September 1996.

Those families wishing to reserve a defined weekly time slot will be asked to commit for an entire semester (not including national or major religious holidays as specified in our calendar) and to prepay the session fee. During this period these families may elect to cancel, with no charge, any three of the sessions—provided that they have notified Renaissance Kids by 5 PM of the previous business day.

Families wishing to obtain private lessons without the commitment described above, may schedule lessons on an “as needed” basis. Payment must be made at the time of scheduling. Once a session is scheduled, NO CANCELLATION will be permitted for any reason. There are currently three methods by which payment may be made:

- Payment may be made in person at our premises at the time of scheduling.
- A credit balance may be deposited in advance from which appropriate amounts will be deducted at the time of scheduling.
- Payment can be made by VISA or MASTERCARD.

The rationale behind these policies is simple. In order to attract and retain the best educational staff, we need to respect their time and pay them quality rates. Therefore, we can no longer allow families to reserve limited time and then arbitrarily cancel. This practice has the effect of unfairly requiring the teacher to be committed and “on call” without the associated financial commitment from the family.
